Training Guide

Table of Contents

I. Introduction

This training guide has been written to assist you in understanding the Ethnic Origin Procedures Manual.

It is to be used in conjunction with the Ethnic Origin Procedures Manual (EO-1).

For each case in the Ethnic Origin Procedures Manual there is a corresponding chapter in this training guide containing exercises on the procedures involved. The purpose of the exercises is not to test your memory but to give you a chance to apply the procedures. You will be required to read one case from the procedures manual and, when you feel you have understood the procedures, you will then complete the exercises.

Do not hesitate to ask for clarification on any part of the procedures that is not completely clear to you.

When you have completed the exercises, you will participate in a group discussion to review the exercises with the trainer.
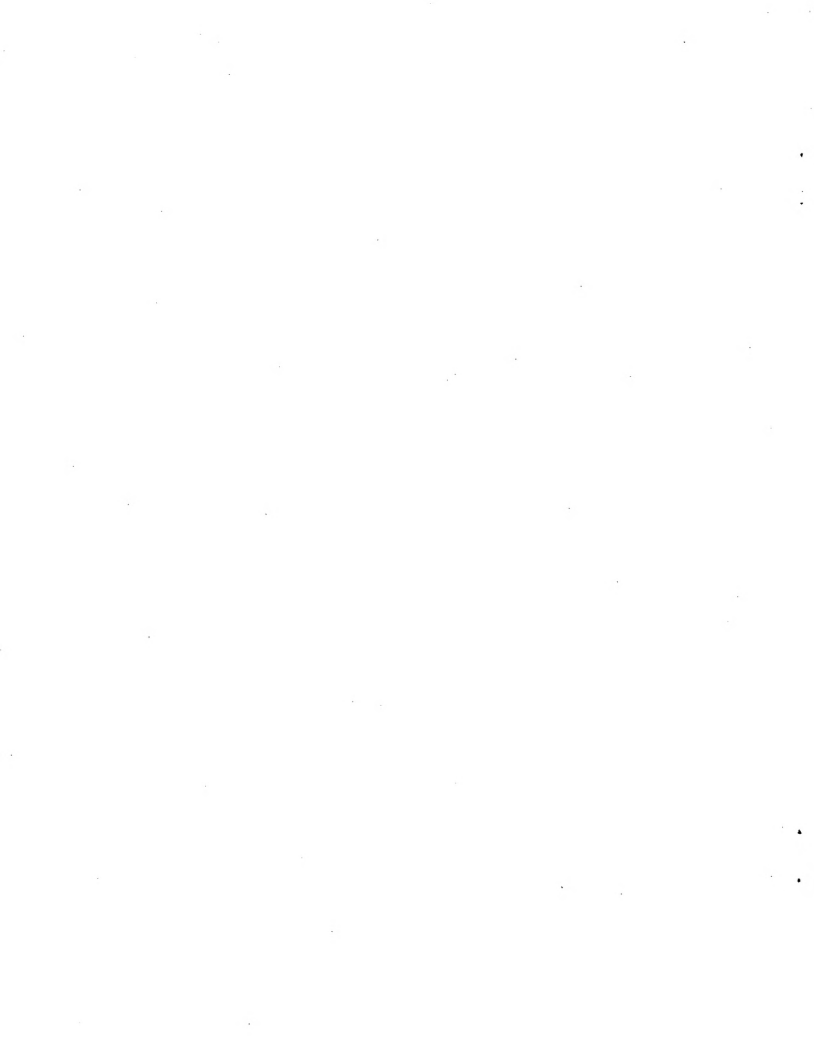

II. Ethnic Origin Variable

Read section 1 – Introduction to the Ethnic Origin Variable of your Procedures Manual, then return to this guide and complete these exercises.

Exercise 1

List the eight basic types of responses you may encounter when coding the Ethnic Origin variable.

(a) _____

(b) _____

(c) _____

(d) _____

(e) _____

(f) _____

(g) _____

(h) _____

Exercise 2

Complete the following steps for ACTR returned phrases:

(a) If a phrase is returned by ACTR _____ the response to be coded starting with the first phrase, to determine if it is a suitable _____ .

(b) If the code description matches the response, then _____ the code.

(c) If the code description does not match the response, then determine if the _____ phrase returned by _____ can be selected.

(d) If _____ match is found in the list ACTR has returned, then the coder may type in a valid code or _____.
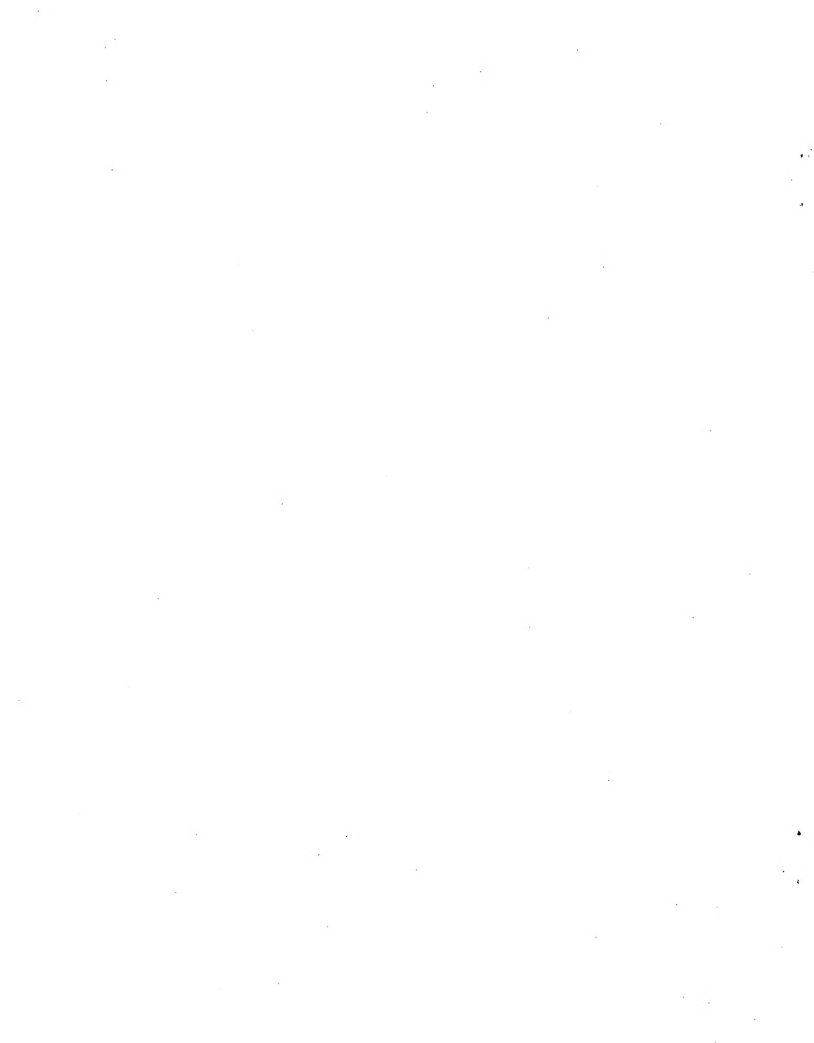

III. Standard Process Flow

Under normal processing conditions, there are specific circumstances which will routinely occur.

Read section II – Standard Process Flow in your Procedures Manual, then return to this guide to complete these exercises.

Exercise 1

The following response appears on your screen. Assign the valid code and indicate the code description that corresponds to this code in the space provided on the next page.

```

Exercise 3

Answer True (T) or False (F) for each of the following statements.

(a) You can only use the Ethnic Origin Reference Code Book
to code a response.   _____

(b) You can browse through the data for the same question for
each household member.   _____

(c) When no phrases are returned by ACTR, you should always
refer the response to the next level of coding.   _____

(d) You can browse through all socio-cultural responses
provided by the respondent in order to code a response.   _____

(e) Write-in responses made up of more than one word are not
valid.   _____

(f) Only the current person's responses can be browsed through
when one is determining the correct code to be used.   _____

(g) Home Language is one cultural variable which can be
browsed when one is determining the correct code to be
used.   _____

(h) If a suitable code is found, you must refer the response to
the next coding level.   _____

(i) If a phrase is returned by ACTR, you must compare the
phrase with the response to be coded to determine if it is a
suitable match.   _____

(j) Coding of multiple responses follows the same coding
procedures as that for single-word responses.   _____

Exercise 4

Place the following steps in the correct order.

( ) Browse through the data from each household member for the same question.
( ) Refer the response to the next coding level.
( ) Identify the response to be coded.
( ) Browse through the person's cultural questions.

Exercise 5

List the cultural variables you can browse when coding a response.
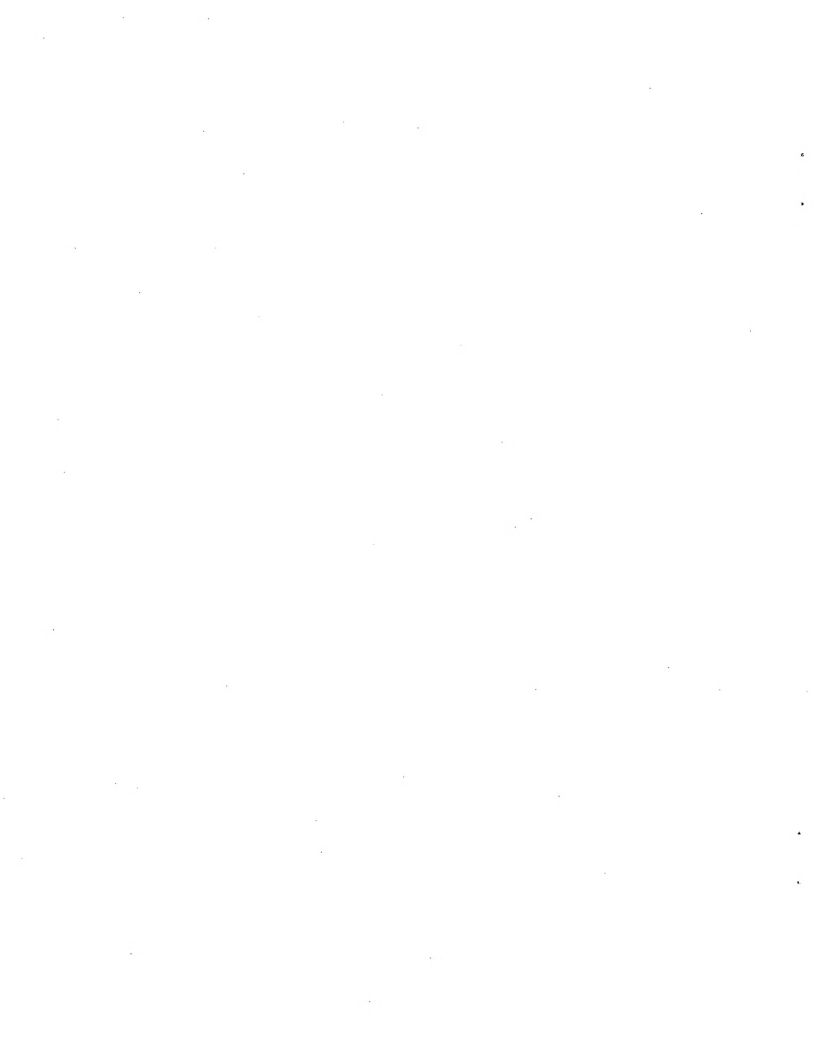

(a) _____

(b) _____

(c) _____

(d) _____

(e) _____

(f) _____

(g) _____

(h) _____

IV. Misspelled Responses

The first type of response you may encounter is a misspelled response.

Read section III – Misspelled Responses of your Procedures Manual, then return to this guide to complete these exercises.

Exercise 1

The following response appears on your screen. Assign a code for this response and indicate the code description that corresponds to that code in the space provided on the next page.

```

(i) Circle the right answer. The correct spelling of this word is:

    (a) Marthinique;
    (b) Marthynique;
    (c) Martinique;
    (d) Martinik.

(ii) Circle the right answer. To find the correct spelling of the write-in, you should first consult:

    (a) the Ethnic Origin Reference Code Book;
    (b) an encyclopedia;
    (c) a dictionary;
    (d) none of the above.

XII. Conclusion

The answers for all exercises are in the Supervisor's Manual.

You have now acquired a theoretical basis. Through this training, you have become familiarized with the tools necessary for coding write-in responses with a minimal error rate. You are now ready to use the ACTR system.
